INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, present to subscribers and the general public, this, the bicentennial commemorative edition of the Cherryville City Directory. (In all, the HILL DIRECTORY COMPANY and its affiliated companies publish more than 1,400 city and suburban Directories).

Confidence in the growth of Cherryville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the City Directory is a mirror truly reflecting Cherryville to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Cherryville City Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified city like Cherryville, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Cherryville, and the name, of official personnel, nature and address of each firm and corporation in the city. A special feature of this section is the listing of telephone numbers.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, new householder symbols and Zip Codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

This publication also contains a Gaston County Rural Residents Directory printed on white paper immediately following the Numerical Telephone Directory.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Cherryville.

The Cherryville Out-of-Town City Directory Library

Through the courtesy of the publishers of the Cherryville City Directory, a Directory Library is maintained in the offices of the Cherryville Chamber of Commerce for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

JAMES E. HOLSHOUSER, JR.
GOVERNOR

STATE OF NORTH CAROLINA
GOVERNOR'S OFFICE
RALEIGH 27611

Fellow North Carolinians:

During this Bicentennial era we can proudly look back on our rich heritage and reflect on the sacrifices that our courageous forefathers made to establish a free nation. North Carolina's "First in Freedom" slogan reminds us of the bold men and women of 1776 who challenged the most powerful nation on earth to decide their own destiny and that of their country.

North Carolina was the first colony to instruct its delegates to the Continental Congress to "concur" in independence. North Carolinians suffered through the winter at Valley Forge and fought and bled at such battles as Moore's Creek, King's Mountain, and Guilford Court House. But most importantly, North Carolinians stood for freedom and the protection of rights, as was demonstrated by their refusal to ratify the Federal Constitution until a Bill of Rights was guaranteed.

Today we are still striving to make "First in Freedom" a reality in North Carolina and in the nation. The community spirit of '76, exemplified in our Bicentennial, offers us a unique opportunity to commemorate our past accomplishments while building for a better future. It is a proud and vital legacy we perpetuate, and a duty we dare not shirk.

Sincerely,

James E. Holshouser, Jr.

CHERRYVILLE HISTORY

Cherryville was known in the 1700's as White Pines. The present name, Cherryville, was originally suggested by Ephriam Black, a member of one of the early families to settle in this area. Officials of the Carolina Central Railroad, later the Seaboard Coast Line Railroad, liked the suggested name. It did describe the little village with the cherry trees along the roadways and lanes and so the name was adopted. In 1881, the name Cherryville became official.

The land on which Cherryville now stands was settled in 1762. Members of the Black family, Scotch-Irish by ancestry, first settled in Pennsylvania. In 1750, they made their way to North Carolina.

Governor Samuel Ashe of North Carolina made the original grants of land in and around Cherryville in 1792. Although one of the oldest cities in Gaston County, Cherryville was not incorporated until 1881.

The Old Post Road, a famous landmark in Cherryville, served as a main thoroughfare between Charlotte, North Carolina and Spartanburg, South Carolina during the 18th century. It was one of the principal connections between Washington, D. C. and some of the most important points in the south. Henry Summit's Cross Roads Store was established on this famous road in 1853.

Gaston County, in which Cherryville is located, was named in honor of William Gaston of New Bern, North Carolina. The Hon. William Gaston served as a member of the Continental Congress and later was an Associate Justice of the Supreme Court. Gaston County was settled during the last half of the 18th century by Scotch-Irish, Germans, and Dutch. Agriculture was the only industry for a number of years. In 1846, the first manufacturing plants were built. These were located along the streams, for water power, which turned the machines.

In the short period of 75 years--from the Old Post Road, and the first cherry trees--Cherryville has grown into a young and virile industrial city.

Specialist or Jack-of-all-Trades?

More and more our graduate schools are preparing young men and women for the "Age of Specialization": Scientists who will specialize in a single segment of one part of the complex world of science; Doctors who concentrate in one particular field of medicine; Lawyers who devote themselves exclusively to one branch of the law; Accountants who pursue the special problems of tax legislation.

The jack-of-all-trades can no longer give satisfactory service if he tries to cope with all of the problems in any particular field. Specialization has become almost mandatory as the horizons of knowledge continue to expand.

We, too, are specialists. We specialize in two fields—savings and home loans.

Today, savings and loan associations provide the facilities where over 50,000,000 people save their money with safety and profit.

Today, savings and loan associations make more home loans than all other financial institutions combined.

This specialization provides better services for you and the people of your community.

CHERRYVILLE SAVINGS & LOAN ASSOCIATION

Out of Sight--Out of Mind

Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

The City Directory

represents the City and its
institutions in every cor-
ner of these United States

Are You Properly Represented In It?

The Classified portion
catalogues the professions

ARE YOU LISTED UNDER YOUR PROPER HEADING

“Think It Over”

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled

Don't Use An Old Directory!

One address taken from an old
Directory may send you miles out
of the way and waste a whole day's
time. You take pride in keeping a
fresh stock of merchandise on
your shelves—

Why not avail yourself of fresh
information for your daily use?

NUMERICAL TELEPHONE DIRECTORY

The Telephone Numbers
and names in this
Directory were
supplied to us during
our regular door to
door canvass.

This Directory is designed to assist you in providing additional information when only a telephone number is available.

NUMERICAL TELEPHONE DIRECTORY

BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, title, home address, business address and phone number.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

CONSULTATIONS OR CIRCULATION
CONSULTED

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.

Out of Sight--Out of Mind

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.
